## **SENIOR SERVICES COMMITTEE**

The newly formed Senior Services Committee has joined forces with the Health and Welfare Committee. The goal of the Senior Services Committee is to evaluate the needs of our residents, resolve those needs or refer folks TO the proper sources. Committee members are Nancy Cooper, Nancy Lawrence, Carol Warner, Madeline and Ray Preston.

Alternate members are Mary Gibson, who will coordinate all health issues, Tom McLain II who will serve as a resource agent and Una Preston.

The first task of the committee is to make certain all residents have correctly completed the ***File of Life*** and have it displayed on the refrigerator. EMTs and hospitals tell us the ***File of Life*** information makes their job much more efficient when dealing with emergency calls. To accomplish this task, "Block Captains" will be visiting each house starting the first of February. These captains will be available to answer any questions you may have and offer you assistance completing the form. Please take the time to speak with the volunteer when he or she comes to your door.

***ONCE AGAIN IT IS TIME TO SAY GOODBYE***

***THANK YOU***

We would like to Thank the Northeast and Social Club for the nice fruit bowl. It was greatly appreciated. Thanks for caring and thinking of us at this time.

Also, thanks to our wonderful friends of Forest Park for the lovely cards, donations to Hospice, and the many, many words of kindness in the loss of our mother.

### **F.P.P.O.A. NEWS**

#### *Letter from the President Becky Conrad*

Thank you for your confidence in electing me to be in charge of many issues in this Park. As I said before, this is a huge challenge. We are building a team together to run this Park. I am only one person. WE are a Team of 12 people.

It is going to take a lot of help from everyone in the Park. Some of you will say I have done my part and I am too old. Wrong!!

When you get up please push your chair up to the table. That is a big help and anybody can do it. Please turn the lights out in the room when you are the last to leave.

All of the above helps Forest Park immensely.

I am learning that we cannot have everything done by January 31. So, on to February charging ahead full bore.

#### **Synopsis of FPPOA Board of Directors Meeting held 1-21-2010**

**By: Sharon Goudy, Secretary**

President Becky Conrad opened the meeting with a welcome to the new officers and members of the Board of Directors. Becky's message to the Board was one of working together as a team and promoting clear communication between the Board members and the General Membership of FPPOA.

Two FPPOA Members asked to speak to the Board.

1. Bud Eckert requested permission to install a shed on his property. Proper documentation was presented and the Board approved the installation of the shed.

2. Ike Zietler asked the Board to investigate options for a possible expansion of the pet sections in Forest Park. The Board will investigate the issue.

Sealing of streets was discussed and bids will be sent out. New "SLOW" signs have been ordered and will be installed soon in high traffic areas. The organizational chart of committees for 2010 was approved and will be posted in the clubhouse. Bocce court repairs were approved. New tree cutting contractors will be sought in April. Shari Lentz is the new person working in the park office. Drop by the office and introduce yourself. The mediation committee reported that all issues have been resolved and no new ones are pending. The WIFI committee reported that new radios have been installed and another line will be added to enhance the system. Security in the RV area was discussed.

Those are the highlights of the Board Meeting. A full set of minutes will be filed in the Park Office and will be available, within a couple of days of each Board Meeting, to the membership to read.

There will be two board meetings held in February and two in March and maybe two in April if the issues warrant. The next Board of Directors meeting will be held on Thursday, February 4, 2010 at 9:00 a.m. in the activities building.

#### Treasurer's Report

These statements indicate cash, or cash-equivalents, (CDs, money market)

#### Financial Summary For December 2009

Balance @ start of month	419,245.31
Income	35,690.77
Expense	-20,977.25
Net for month	<u>14,713.52</u>
Balance @ end of month	433,958.83

Note:

The large net for this month was largely due to maturing CDs and a new membership.

#### Financial Summary for Year 2009

Balance @ start of year	335,690.08
Income	406,085.71
Expense	-307,816.96
Net for period	<u>98,268.75</u>
Balance @ end of year	433,958.83

Note:

This year we achieved our goal of having a fully-funded reserve fund. At the same time we reversed the trend of increasing operating expenses, (which doubled from 2002-2008, but decreased in 2009).

The unusually large other income amount was due to ~ \$14,500 insurance payment relating to the activity building water tank failure.

### *Forest Park WiFi Summary*

2010 January 17

We are using the best technology currently available to us, but we are constantly looking for improvement. Because of radio noise problems, the units transmitting from the RV area were replaced late last year, and by the time you read this, the main radio units will have been replaced due to intermittent operation.

Park WiFi is subject to the laws of physics. Except for a circular area about 100' radius directly beneath the towers, if a wireless-equipped computer has unobstructed line of sight, (LOS) to one of the radio transmitters, it will be able to surf the web, and send and receive email. If a computer does not have unobstructed LOS, (i.e. if it is obstructed by metal siding or trees), it will probably not be able to surf consistently.

The Park radio units have been located so that they have LOS to an area a few feet above the roof of most Forest Park homes. Connection to the Park service can then be achieved with an outside receiver mounted where it can “see” the transmitting radio, and which then relays the connection by cable into the house. An outside receiving unit can also relay the connection indoors to a router, which in turn can relay the internet connection to a number of computers within the house.

Question check list and options for connecting:

Does my wireless-enabled laptop, or the antenna/receiver connected to my desktop, have unobstructed line of sight to the park's radio unit?

- If YES, you should be able to connect.
- If NO, because there may be some obstructions to LOS, like metal walls, trees etc., you probably will not be able to connect consistently or reliably. You will then need to set up a receiving unit several feet above your roof line where it can “see” one of the radios.
- Setting up these receiving units yourself takes some practice and patience, and some understanding of the interaction between the computer and the unit. The computer club is gaining experience in this area and can provide printed instructions on what to buy and where to buy it. The club, however, cannot assume responsibility for the installation, but will program the receiving unit for you and also provide written instructions. Our suggestion for mounting the receiving unit is to place it at the top of two, joined 10' lengths of 1 3/8” diameter fence top-rail tubing. These are available from Home Depot for ~ \$9/length. The cost of receiver, cable, pole etc. for self-installation is about \$100. A

park handy-man is ready to install such a pole, mount your receiving unit, and run cables into your house for a fee that will depend on the circumstances.

- The other option is to contact ETHX, the company that installed the Park system, who will install and set up a receiving unit for about \$250, or for \$300 with a router.

Congratulations to all the successful candidates and welcome back to some of our veterans. Good luck to all of you for your upcoming terms of office.

At this time I would like to recognize our outgoing Officers and Members of the Board for many hours of their time and input. It takes good volunteers to keep Forest Park running smoothly and your work is appreciated. Thank you.

### **NEIGHBORHOOD WATCH NEWS**

Thank you to Ken Warner, Ren Whitaker, Dan and Sandy O'Brien for taking over the neighborhood watch and security issues in Forest Park.

We met in the Clubhouse on January 6 as it was nippier and nippy outside the first week of January. We had about 30 people in attendance including two officers from the Lee County Sheriff's Department.

If you have heard it before you are going to hear it again. On the night of December 28 we had a potentially dangerous situation in Forest Park. Four men stole a car in Fort Myers and were apprehended on Hart Road. One ran and came into our park. PLEASE, when you hear the helicopter overhead DO NOT go outside and if you are outside please get inside. LOCK YOUR DOORS AND ALL WINDOWS. Hunker down and know your surroundings. The Sheriff does not send that thing up to look pretty. This man was a criminal and was seen on Hollyberry in two different places and running between houses on Palm Frond. We had 8 cruisers plus the K-9 dog in the park. Please don't go outside to see what is happening. This man would never have thought twice about taking a hostage. He was going to jail anyway so one more charge would not have bothered him.

We were very lucky no one in Forest Park got hurt.

You have chosen to move me on to other issues in Forest Park which I thank you for, but I will still be active with keeping Forest Park the secure park it is now.

Respectfully submitted by  
Becky Conrad

Four lap quilts were given to residents of our park in December and January. Ruth Boys, Eric Elliot, Janet Rutledge and Karolyn Offerman were the recipients. They are sewn, and given, with the intent to comfort.

Our raffle quilt is ready and it is a beauty. Tickets are for sale from individual members and will be for sale at the next Hot Dog dinner on January 26. The drawing will be Sunday March 14.

There is no charge and although the projects are designed to be embroidered, you need not have an embroidery machine to join us. If you are interested in purchasing an embroidery machine or already own one but would like to learn more, this is a great opportunity.

After completing the course, participants receive a certificate which can be sent to their car insurance company. Most insurance carriers will grant at least a 5% discount on the policy for a three-year period. Those with non-Florida driver's licenses are advised to check with their insurance carrier to make sure the 6 hour Florida course will be honored.

The cost of the course is \$12.00 p/p for AARP members and \$14.00 p/p for non-members. This covers the cost of materials provided by AARP. ### **CHEF'S CORNER**

*I have two recipes this month that I hope you will enjoy*

#### **Chicken Marsala – Weightwatchers**

- 4 ¼ lb. thin-sliced chicken breast cutlets
- ½ tsp. salt
- ½ tsp. coarsely ground black pepper
- 2 tsp. olive oil
- 2 cups sliced fresh mushrooms

- ¼ cup Marsala (red wine)
- ¼ cup reduced-sodium chicken broth

Sprinkle the chicken with salt and pepper. Heat the oil in a large nonstick skillet over medium high heat. Add the chicken and cook until cooked through, About 3 minutes on each side. Transfer the chicken to a platter and keep warm.

Add the mushrooms to the skillet and cook, stirring frequently, until browned, about 3 minutes. Sprinkle the mushrooms with flour, stirring to blend. Add the Marsala and broth; bring to a boil. Cook, occasionally, until the sauce thickens, about 3 minutes. Spoon the sauce over the chicken.

#### **Omelettes's in a Bag**

It's fun to put out a tray of ingredients such as Cheeses, ham, onions, green pepper, tomato, Salsa, etc. and guests individualize their omelette. Here's how it works:

1. Use a quart size freezer bag
2. Have your guests use a permanent marker and write their name on the bag.
3. Crack two large or extra-large eggs (egg beaters may also be used) into the bag (more than two does not work), shake and combine them.
4. Add the prepared ingredients of your choice and shake all together.

5. Make sure to get the air out of the bag.
6. Place the bags into rolling-boiling water for 13 minutes (exactly).  
Using a large pot, you can usually cook 6-8 omelettes. For more, make another pot of boiling water.
7. Open the bags, the omelette will roll out and plate it. Be prepared to listen to your guests gasp in amazement.
